Description

4 sharp, tonal pulses in swift succession
Short bleep, that drops swiftly in pitch, then sputters out
Short bleep, that drops swiftly in pitch, sputters for a bit, then almost makes it back
Swift sequence of 3 squarewave sounding bleeps dropping in pitch, then sputter and die
Short squarewave tones, then sputter and slight return
5 short, stepped bursts of squarewave tones
4 short, stepped bursts of squarewave tones and some sputtering
Loop of short, sharp alert tones and a little background hum, variation
Loop of short, sharp alert tones and a little background hum
Short, quiet, toneless static noise
Short blip, followed by a series of static pops
Cell phone, static pops, then short tone
Cell phone, static pops, clicks, then various tones and squeals
Cell phone, static pops, clicks, background noise and nasal tone
Cell phone, background noise, clicks and strange duophonic tone
Cell phone, short high pitched squeal, then abrasive tone with vibrato
Cell phone, static pops, clicks, then various tones and squeals, variation
Cell phone, strangely hesitant series of pops, clicks, noises and a duophonic tone,
Cell phone, hum, buzz, strange flatulent sounds
Cell phone, cacophony of tones followed by rhythmic clicks, overlaid with stuttering, morse-like blips
Cell phone, hum, fizz and pulse-width modulated tone
Cell phone, rhythmic blips or chirps, hum and various garbled noises
Cell phone, scratchy clicks, alternating with buzzy, crisp tones
Cell phone, polyphonic, cacophonous tone like a carhorn, over rhythmic scratches
Cell phone, random scratches and tones over a cricket-like background
Cell phone, static pops, clicks, then various tones and squeals, variation
Hum, oscillations, blips and in-between-station noises
Heartbeat-like sound with a fluttering character
MiniDisc motor revving up, making spluttery noises
MiniDisc motor revving up, buzzing and sizzling, making spluttery noises
Electronic motor at slow revs, with tremolo
Electronic motor at slower revs, with tremolo
Electronic motor shifting abruptly from slow to fast revs
Frizzy, crackling sounds rising quickly in pitch and dropping again
Electronic oscillation modulated in amplitude and overtones
Electronic oscillation modulated in amplitude and overtones, lower pitch, swifter modulations
Electronic oscillation modulated in amplitude and overtones, low pitch, slow modulations
Electronic oscillation modulated jerkily in amplitude and overtones
Electronic oscillation pitch rising in quick steps
Electronic oscillation, high pitched, buzzing, drops in pitch and dies out
Electronic oscillation at high freq, 4 short bursts in volume
Electronic oscillation at high freq, 5 short bursts of unequal length
Electronic oscillation at high freq, whine and buzz
Electronic oscillation at high freq, whine and buzz, long file
Electronic oscillation, low freq, buzzing, tremolo
Electronic oscillation, low freq squarewave, narrow duty cycle, rising, then falling in pitch
Electronic oscillation, low mid freq with a dirty, hollow sound
Electronic oscillation, modulating overtones
Electronic oscillation, motor like, pitch drops in steps and dies with a sputter
Electronic oscillation, motor like, pitch drops in steps and dies with a sputter, variation
Electronic oscillation, motor like, pitch crashes and dies with a slow rev sputter
Electronic oscillation, motor like, pitch drops with a squeak and dies with a slow, fluttering sputter

Sheet1

Electronic oscillation, motor like, revs up with a growl, then drops with a slow note
Electronic oscillation, motor like, revs up and down swiftly, with a shrill sound
Electronic oscillation, motor like, slow, fluttering, shrill revs
Electronic oscillation, motor like, slow, fluttering, shrill revs, like a tractor in reverse
Electronic oscillation, like spaceship in reverse, slow, then fast, then warp
Electronic oscillation, dull, steady whine with a slightly dirty quality
Electronic oscillation, piercing, steady whine with a slightly dirty quality
Electronic oscillation, dull whine, pulsing slowly, irregularly
Electronic oscillation, sharp whine, rev and release x 4
Electronic oscillation, dull whine, single rev and release
Electronic oscillation, sharp whine, rev and release x 3
Electronic oscillation, chunky, single burst
Electronic oscillation, thin whine, slightly dirty, long
Electronic oscillation, thin whine, variations in amplitude and overtones
Electronic oscillation, thin whine, revs down at end
Electronic oscillation, pop, buzz or hum
Electronic oscillation, rising note ending like air escaping a balloon
Electronic servo, starts, then runs, with a buzzy, dirty squarewave sound
Electronic servo, rev up, then release with a thunk
Electronic servo, rev up higher, then release with a thunk
Electronic servo, rev up higher still, then release with a thunk
Electronic servo, short burst, like a strange robotic wrench
Electronic servo, medium rev, guttural squarewave
Electronic servo, medium rev, guttural squarewave, variation
Electronic servo, various revs, like a nanobot drilling
Electronic servo, rev up bursts, like a fizzy, miniature motorbike
Electronic servo, bursts at various revs, short and long
Electronic servo, single rev up burst
Electronic servo, single, short rev up burst
Electronic servo, single rev up burst, a bit longer
Electronic servo, single rev up burst, release with a thunk
Electronic servo, rev slow, then medium speed
Electronic servo, rev slow, then medium speed, hollow, warm sound
Electronic servo, robot maneuvering, strange metallic overtones
Electronic servo, robot maneuvering, fizzy overtones
Electronic servo, robot maneuvering, fizzy overtones, release with a thunk
Electronic servo, robot maneuvering, warm overtones
Electronic servo, robot maneuvering, various revs, various overtones
Electronic servo, pocket camera lens, whirr beep
Electronic servo, pocket camera lens, whirr, beep
Electronic servo, pocket camera lens, whirr, focusing
Electronic, pocket camera shutter release, noise, hum
Electronic static and hum, like a grounding problem, with clicks and soft thumps
Electronic static and hum, like a grounding problem
Electronic static and hum, clicks, interference and fluctuations
Electronic static and hum, clicks, interference and fluctuations, hiss
Electronic static and hum, clicks, interference and fluctuations, dull
Electronic strange hum, fluttering thumps
Electronic, breathy pwm tone alternating with rapid clicks or pops, variation
Electronic, breathy pwm tone alternating with rapid clicks or pops
Electronic static and hum, with tone emerging
Electronic tones alternating, tonal and atonal, sizzling, buzzy
Electronic high pitched whine, overlaid with chirping oscillations, random fluctuating amplitude

Sheet1

Electronic piercing whine, calmly tremulating, interspersed with various chirps
Electronic whine, with slightly pwm sweeps of clicky sounds
Laptop boots, then idles with various sputters and noises, is shut off, with hdd slowly spinning down
Laptop, different patterns of noises, buzzes, overlapping with a randomized quality
Laptop, tone with fluctuating overtones and flapping clicks
Laptop, fluctuating hum and morsecode beeps
Laptop, clear morsecode beeps and slightly dirty tonal drone
Laptop, noise, whine and clicks, various tonal drones with snarling quality
Laptop, nasal buzzy drone, crackles and morsecode beeps, variation
Laptop, nasal buzzy drone, crackles and morsecode beeps
Laptop, alternating between drone with octave jumps and loud morsecode beeps
Laptop, polyphonic drone, slight morsecode and abrasive crackles
Laptop, polyphonic drone, slight morsecode and moderate crackles
Laptop, drone with a snarling quality, slight morsecode beeps, moderate clicks
Laptop, constant whine over flappy clicks
Laptop, boots up, constant whine, with throaty, dull crackles
