Transmission/Interefernce
TrackTitle
Sound design buzzing accent fizzy and spurting light and fast
Sound design buzzing accent fizzy and spurting with a slight swell
Sound design buzzing accent fizzy and spurting with a slight, fast swell
Sound design buzzing accent fizzy and spurting with a strong waver
Sound design buzzing accent fizzy and spurting with a strong, hesitant waver
Sound design buzzing accent fizzy and spurting, sustained
Sound design buzzing accent fizzy and spurting, sustained with a waver
Sound design buzzing accent fizzy and spurting weakly
Sound design buzzing accent fizzy and spurting weakly and short
Sound design buzzing accent fizzy and spurting x2
Sound design buzzing accent, shrill
Sound design buzzing interference accent, resonant chatter, deep and strong
Sound design buzzing interference accent, resonant chatter, deep and strong with a shudder
Sound design buzzing interference accent, resonant chatter, deep and tweaking lightly
Sound design buzzing interference accent, resonant chatter, robotic
Sound design buzzing interference accent, resonant chatter, robotic and strong
Sound design buzzing interference accent, resonant chatter, evolving strongly
Sound design buzzing interference accent, resonant chatter, swelling and panning
Sound design buzzing interference accent, swelling and skipping with a high, pinched whine, complex
Sound design buzzing interference accent, swelling and skipping with a high, pinched whine then diminishing
Sound design buzz and noise accent with a deep buzz and thin noise
Sound design buzz and noise accent with a coarse buzz and crackling noise
Sound design buzz and noise accent with a coarse deep buzz and thick noise
Sound design buzz and noise accent with a coarse harsh buzz and thin, high noise
Sound design buzz and noise accent with a coarse, resonant buzz and coarse noise
Sound design buzz and noise accent with a coarse, thin buzz and coarse, crackling noise
Sound design buzz and noise accent with a coarse, thin buzz and noise hit
Sound design buzz and noise accent with a coarse, thin buzz and abrupt noise hit
Sound design buzz and noise accent with a coarse, thin buzz and crackling noise hit
Sound design buzz and noise accent with a coarse, whining buzz and thin noise
Sound design buzz and noise accent with a deep buzz and soft, crackling noise
Sound design buzz and noise accent with a deep, whining buzz and noise hit
Sound design buzz and noise accent with a harsh cybernetic buzz and tight noise
Sound design buzz and noise accent with a harsh resonant buzz and thick noise
Sound design buzzing and noisy accent with a buzzing line hum and thick, airy noise
Sound design buzz and noise accent with a mid low tone buzz and high, subtle noise
Sound design buzz and noise accent with a mid nasal buzz and thin noise
Sound design buzz and noise accent with a muted, high buzz and crispy, crackling noise
Sound design buzz and noise accent with a muted, high buzz and crispy, crackling noise and beep
Sound design buzz and noise accent with a muted, high buzz and crispy, crackling noise, steady and long
Sound design buzz and noise accent with a muted, high buzz and crispy noise, medium to light
Sound design buzz and noise accent with a muted, high buzz and crispy noise, steady
Sound design buzz and noise accent with a raw buzz and chattering noise
Sound design buzz and noise accent with a raw, resonant buzz and coarse noise
Sound design buzz and noise accent with a raw, resonant deep buzz and thin, high noise
Sound design buzz and noise accent with a raw, resonant mid-toned buzz and thin, high noise
Sound design buzz and noise accent with a resonant buzz and harsh, crackling noise
Sound design buzz and noise accent with a resonant buzz and flanging noise
Sound design buzz and noise accent with a resonant buzz and thin, chattering, and crispy noise
Sound design buzz and noise accent with a resonant, strong buzz and thin, reedy noise
Sound design buzz and noise accent with a resonant, subtle buzz and crackling noise
Sound design buzz and noise accent with a resonant, subtle buzz and crackling noise in two tones
Sound design buzz and noise accent with a resonant, subtle buzz and crackling noise in two tones, long
Sound design buzz and noise accent with a resonant, subtle buzz and crackling noise in two tones, subtle
Sound design buzz and noise accent with a shuddering, whining buzz and crackling noise
Sound design buzz and noise accent with a shuddering, whining buzz and crackling noise, deep
Sound design buzz and noise accent with a shuddering, whining buzz and crackling noise, low
Sound design buzz and noise accent with a shuddering, whining buzz and crackling noise, low and light
Sound design buzz and noise accent with a shuddering, whining buzz and crackling noise, low and sputtering
Sound design buzz and noise accent with a subtle, swelling buzz and coarse, sputtering noise, light
Sound design buzz and noise accent with a subtle, swelling buzz and coarse, sputtering noise, strong
Sound design buzz and noise accent with a subtle, swelling buzz and coarse, sputtering noise, strong to fade
Sound design buzz and noise accent with a subtle, swelling buzz and coarse, sputtering noise, strong and abrupt
Sound design buzz and noise accent with a subtle, swelling buzz and coarse, sputtering noise, strong and forceful
Sound design buzz and noise accent with a subtle, swelling buzz and coarse, sputtering noise, subtle and diminishing
Sound design buzz and noise accent with a thin, shrill buzz and thin, soft noise
Sound design buzz and noise accent with a thin, whining buzz and soft, subtle noise
Sound design buzz and noise accent with a thin, whining buzz and soft, subtle noise, light
Sound design buzz and noise accent with a tight, pinched buzz and tight, crackling noise
Sound design buzz and noise accent with a tight, pinched buzz and tight, crackling noise, crisp
Sound design buzz and noise accent with a tight, pinched buzz and tight, crisp noise, abrupt
Sound design buzz and noise accent with a tight, pinched buzz and tight, crisp noise with a sustained fizzle
Sound design buzzing and noisy interference accent with a buzz to chatter and fluttering noise
Sound design buzzing and noisy interference accent with a thin, chattering buzz and thin, granular ringing noise, beep
Sound design buzzing and noisy interference accent with a thin, chattering buzz and thin, granular ringing noise, weak
Sound design buzzing and noisy interference accent with a coarse, thick buzz and gritty noise
Sound design buzzing and noisy interference accent with a raw, harsh buzz and noise, brief
Sound design buzzing and noisy interference accent with a raw, harsh buzz and noise, brief and strong
Sound design buzzing and noisy interference accent with a raw, harsh buzz and noise, complex
Sound design buzzing and noisy interference accent with a raw, harsh buzz and noise, crackling
Sound design buzzing and noisy interference accent with a raw, harsh buzz and noise, crackling and crisp
Sound design buzzing and noisy interference accent with a raw, harsh buzz and noise, crackling harshly
Sound design buzzing and noisy interference accent with a raw, harsh buzz and noise, crackling harshly, x2
Sound design buzzing and noisy interference accent with a raw, harsh buzz and noise, deep
Sound design buzzing and noisy interference accent with a raw, harsh buzz and noise, with a hum
Sound design buzzing and noisy interference accent with a raw, harsh buzz and noise, with a hum and skipping
Sound design buzzing and noisy interference accent with a raw, harsh buzz and noise, with a hum and skipping, short
Sound design buzzing and noisy interference accent with a raw, harsh buzz and noise, mid-toned
Sound design buzzing and noisy interference accent with a raw, harsh buzz and noise, skipping
Sound design buzzing and noisy interference accent with a raw, harsh buzz and noise, sustained
Sound design buzzing and noisy interference accent with a raw, pushy buzz and crackling, sputtering noise, complex
Sound design buzzing and noisy interference accent with a raw, pushy buzz and crackling, sputtering noise, complex and sk
Sound design buzzing and noisy interference accent with a raw, pushy buzz and crackling, sputtering noise, hum to crackle
Sound design buzzing and noisy interference accent with a raw, pushy buzz and crackling, sputtering noise, mid-toned to still
Sound design buzzing and noisy interference accent with a raw, pushy buzz and crackling, sputtering noise, strong
Sound design buzzing and noisy interference accent with a raw, resonant buzz and crackling noise
Sound design buzzing and noisy interference accent with a raw, resonant, erratic buzz and raw, sputtering noise
Sound design buzzing and noisy interference accent with a raw, resonant, erratic buzz and raw, sputtering noise, complex
Sound design buzzing and noisy interference accent with a raw, resonant, erratic buzz and raw, sputtering noise, complex ar
Sound design buzzing and noisy interference accent with a raw, resonant, erratic buzz and raw, sputtering noise and hum
Sound design buzzing and noisy interference accent with a raw, resonant thin and erratic buzz and raw, sputtering noise
Sound design buzzing and noisy interference accent with a raw, resonant thin and erratic buzz and raw, sputtering noise and
Sound design buzzing and noisy interference accent with a raw, tight buzz and fluttering noise
Sound design buzzing and noisy interference accent with a resonant buzz and crackling noise
Sound design buzzing and noisy interference accent with a resonant buzz and crackling noise, abrupt
Sound design buzzing and noisy interference accent with a resonant buzz and crackling noise, flexing
Sound design buzzing and noisy interference accent with a resonant buzz and crackling noise, low
Sound design buzzing and noisy interference accent with a resonant buzz and crackling noise, pulsing
Sound design buzzing and noisy interference accent with a resonant buzz and fluttering noise, panning
Sound design buzzing and noisy interference accent with a resonant buzz and fluttering noise, panning, buffet to crackle
Sound design buzzing and noisy interference accent with a resonant buzz and fluttering noise, panning, hum to crackle
Sound design buzzing and noisy interference accent with a resonant buzz and a noise hit, strong
Sound design buzzing and noisy interference accent with a resonant buzz and a noise hit, uncertain
Sound design buzzing and noisy interference accent with a mid-high resonant buzz and crackling noise
Sound design buzzing and noisy interference accent with a mid-high resonant buzz and crackling noise, wavering
Sound design buzzing and noisy interference accent with a swelling resonant buzz and noise hits
Sound design buzzing and noisy interference accent with a subtle buzz and crackling noise with robotic squeaks
Sound design buzzing and noisy interference accent with a subtle buzz and crackling noise with robotic squeaks, insistent
Sound design buzzing and noisy interference accent with a thin buzz and noise hit, light to strong
Sound design buzzing and noisy interference accent with a thin buzz and noise hit, medium
Sound design buzzing and noisy interference accent with a thin buzz and noise hits
Sound design buzzing and noisy interference accent with a thin, steady to swelling buzz and soft noise, low
Sound design buzzing and noisy interference accent with a thin, steady to swelling buzz and soft noise, mid-toned
Sound design buzzing and noisy interference accent with a thin, steady to swelling buzz and soft noise, wavering
Sound design buzzing and noisy interference accent with a thin, tight and subtle erratic buzz and thin, crackling noise
Sound design buzzing and noisy interference accent with a whining buzz and tight, crackling subtle noise, complex
Sound design buzzing and noisy interference accent with a whining buzz and tight, crackling subtle noise, garbled
Sound design buzzing and noisy interference accent with a whining buzz and tight, crackling subtle noise, whine
Sound design buzzing and noisy interference accent with a whining buzz and tight, crackling subtle noise, whine and garbled
Sound design buzzing and noisy interference accent with a whining, buzz steady to swelling and chattering noise
Sound design buzzing and noisy transmission accent with a coarse, deep buzz and thin noise with a ringing accent
Sound design buzzing and noisy transmission accent with a coarse, deep buzz and thin noise with a ringing accent, pumping
Sound design buzzing and noisy transmission accent with a coarse, deep buzz and thin noise with a ringing accent, simple
Sound design buzzing and noisy transmission accent with a raw, deep buzz and soft and crackling noise, subtle
Sound design buzzing and noisy transmission accent with a resonant, hollow, chattering buzz and thin noise, mid to low to n
Sound design buzzing and noisy transmission accent with a resonant, hollow, chattering buzz and thin noise, simple
Sound design buzzing and noisy transmission accent with a resonant, hollow, chattering buzz and thin noise, stutter
Sound design buzzing and noisy transmission accent with a thin, subtle and erratic buzz and thin, chattering noise, abrupt
Sound design buzzing and noisy transmission accent with a thin, subtle and erratic buzz and thin, chattering noise, light
Sound design buzzing and noisy transmission accent with a thin, subtle and erratic buzz and thin, chattering noise, light to m
Sound design buzzing and noisy transmission accent with a thin, subtle and erratic buzz and thin, chattering noise, medium
Sound design buzzing and noisy transmission accent with a thin, subtle and erratic buzz and thin, chattering noise, medium
Sound design buzzing and noisy transmission accent with a thin, subtle and erratic buzz and thin, chattering noise, medium
Sound design buzzing and noisy transmission accent with a thin, subtle and erratic buzz and thin, chattering noise, medium
Sound design buzzing and noisy transmission accent with a thin, subtle and erratic buzz and thin, chattering noise, stuttering
Sound design buzzing and noisy transmission accent with a thin, subtle and erratic buzz and thin, chattering noise, swelling
Sound design buzz accent, raw and aggressive and wavering
Sound design buzz accent, raw and coarse, electric
Sound design buzz accent, raw and coarse, nasal
Sound design buzz accent, raw and coarse, pushy
Sound design buzz accent, raw and coarse, pushy and tight
Sound design buzz accent, raw and crisp, forceful and deep and resonant
Sound design buzz accent, raw and forceful
Sound design buzz accent, raw and forceful, deep
Sound design buzz accent, raw, forceful and resonant, mid-toned
Sound design buzz accent, raw, forceful and resonant, mid low-toned
Sound design buzz accent, raw and gritty, resonant
Sound design buzz accent, resonant and deep
Sound design buzz accent, resonant and muted
Sound design buzz accent, resonant and muted and deep
Sound design noise accent, airy, distorted, and muted
Sound design noise accent, airy, nasal, and pinched
Sound design noise accent, airy, raw, and strong
Sound design noise accent, airy and raw
Sound design noise accent, airy, thick, and muted
Sound design noise accent, airy, thick, and raw with a deluge
Sound design noise accent, airy, thick, and raw with swells
Sound design noise accent, airy, thick, and soft
Sound design noise accent, airy, thick, and soft
Sound design noise accent, airy, thick, and soft with faint crackles
Sound design noise accent, airy, thick and soft with a rumble
Sound design noise accent, airy, thick, and soft
Sound design noise accent, airy, thick, and soft
Sound design noise accent, airy, thick, soft, and spacious
Sound design noise accent, airy and thin
Sound design noise accent, airy, thin, and faint with crackles
Sound design noise accent, airy, thin, and faint
Sound design noise accent, airy, thin, and filtered and distorted
Sound design noise accent, airy, thin, and harsh
Sound design noise accent, airy, thing, and high with faint crackles
Sound design noise accent, airy, thin, and soft
Sound design noise accent, airy, thin, and strong
Sound design noise accent, airy, thin, and strong
Sound design noisy and buzzing interference accent with chattering, irregular noise and resonant buzz, light to medium
Sound design noisy and buzzing interference accent with chattering, irregular noise and resonant buzz, struggling
Sound design noisy and buzzing interference accent with soft noise and a raw, subtle buzz and whine, beeps
Sound design noisy and buzzing interference accent with soft noise and a raw, subtle buzz and whine, light
Sound design noisy and buzzing interference accent with soft noise and a raw, subtle buzz and whine, shuddering
Sound design noisy and buzzing interference accent with thin, crackling noise and a thin, subtle buzz and whine
Sound design noisy and buzzing interference accent with thin, crackling noise and a thin, subtle buzz and whine, abrupt
Sound design noisy and buzzing interference accent with thin, crackling noise and a thin, subtle buzz and whine, abrupt with
Sound design noisy and buzzing interference accent with thin, crackling noise and a thin, subtle buzz and whine, flexing
Sound design noisy and buzzing interference accent with thin, crackling noise and a thin, subtle buzz and whine, light
Sound design buzz and noise accent with soft noise and hits and a soft buzz
Sound design buzz and noise accent with soft, thick noise and a resonant buzz, subtle
Sound design buzz and noise accent with thick noise and a hit with a subtle buzz
Sound design buzz and noise accent with thick, forceful noise and a thin buzz
Sound design buzz and noise accent with thick, harsh noise and a subtle buzz
Sound design buzz and noise accent with thin, crisp noise and a deep buzz
Sound design buzz and noise accent with thin, tight, and crisp noise and a subtle buzz
Sound design buzz and noise accent with thin, tight, and crisp noise and a subtle buzz, strong
Sound design noisy and buzzing transmission accent with harsh, strong noise and subtle buzz
Sound design noisy and buzzing transmission accent with soft noise and a hit and a soft buzz
Sound design noisy and buzzing transmission accent with soft noise and a subtle buzz
Sound design noisy and buzzing transmission accent with thick, pushy noise and a subtle buzz
Sound design noise accent, cybernetic wavering digital noise
Sound design noise accent, cybernetic wavering digital noise, nasal
Sound design noise accent, granular nasal chattering with wavering
Sound design noise accent, granular, distorted, hollow, and overpowering
Sound design noise accent, granular and distorted with soft, airy noise
Sound design noise accent, granular, gritty, and sputtering
Sound design noise accent, granular, thick, and pushy
Sound design noise accent, granular and thin with a faint hum
Sound design noise accent, granular, thin, and muted
Sound design noise accent, granular, thin, pinched, and harsh with airy, thick, soft noise
Sound design noise accent, hollow, muted, and low
Sound design noisy interference accent with a crackle, flutter, and rumble, 1
Sound design noisy interference accent with a crackle, flutter, and rumble, 2
Sound design noisy interference accent with a crackle, flutter, and rumble, 3
Sound design noisy interference accent with a crackle, flutter, and rumble, pulsing
Sound design noisy interference accent with a crackle, short
Sound design noisy interference accent with a crackle, short and deep
Sound design noisy interference accent with a crackle, slight buzz
Sound design noisy interference accent with a crackle, strong chuff, and some buzz
Sound design noisy interference accent with a crisp crackle, 1
Sound design noisy interference accent with a crisp crackle, 2
Sound design noisy interference accent with a crisp crackle, 3
Sound design noisy interference accent with a crisp crackle, 4
Sound design noisy interference accent with a crisp crackle, 5
Sound design noisy interference accent with a crisp crackle, 6
Sound design noisy interference accent with a crisp crackle, bursting
Sound design noisy interference accent with a crisp crackle, deep
Sound design noisy interference accent with a crisp crackle, disconnecting
Sound design noisy interference accent with a crisp crackle, harsh
Sound design noisy interference accent with a crisp crackle, harsh and complex
Sound design noisy interference accent with a crisp crackle, harsh and light
Sound design noisy interference accent with a crisp crackle, panning
Sound design noisy interference accent with a crisp crackle, short
Sound design noisy interference accent with a crisp crackle, short and abrupt
Sound design noisy interference accent with a crisp crackle, short and strong
Sound design noisy interference accent with a crisp crackle, skipping
Sound design noisy interference accent with a crisp crackle, stuttering
Sound design noisy interference accent, deep and subsonic and resonant
Sound design noisy interference accent with a fluttering chuff, accelerating
Sound design noisy interference accent with a fluttering chuff, complex
Sound design noisy interference accent with a fluttering chuff, hiccuping
Sound design noisy interference accent with a fluttering chuff, light to medium
Sound design noisy interference accent with a fluttering chuff with a reversed accent
Sound design noisy interference accent with a fluttering chuff, short and light
Sound design noisy interference accent with a fluttering chuff, short and strong
Sound design noisy interference accent with a fluttering chuff, skipping
Sound design noisy interference accent with a fluttering chuff and some buzz, abrupt
Sound design noisy interference accent with a fluttering chuff and some buzz, complex
Sound design noisy interference accent with a fluttering chuff and some buzz, complex and strong
Sound design noisy interference accent with a fluttering chuff and some buzz, pulsing
Sound design noisy interference accent with a fluttering chuff and some buzz, short and crisp
Sound design noisy interference accent with a fluttering chuff and some buzz with a zap
Sound design noisy interference accent with a fluttering chuff, strong
Sound design noisy interference accent with a fluttering chuff, strong to disconnecting
Sound design noisy interference accent, harsh and short with a buzz
Sound design noisy interference accent, harsh and short and sharp
Sound design noisy interference accent hit with a chuff
Sound design noisy interference accent hit with a chuff, crunchy
Sound design noisy interference accent hit with a chuff, crunchy and low
Sound design noisy interference accent hit with a chuff, light
Sound design noisy interference accent hit with a chuff, with a light tick
Sound design noisy interference accent hit with a chuff, low
Sound design noisy interference accent hit with a chuff, skipping
Sound design noisy interference accent hit with a chuff, strong
Sound design noisy interference accent hit with a chuff and a tick
Sound design noisy interference accent hit with a chuff and a tick, crisp
Sound design noisy interference accent with a rumble and faint whine
Sound design noisy interference accent with a thin, harsh crackle
Sound design noisy interference accent with a thin, harsh crackle, short
Sound design noisy interference accent with a thin, harsh crackle, sputtering
Sound design noisy interference accent with a thin, harsh crackle with a long zap
Sound design noisy interference accent with a thin, harsh crackle with a simple zap
Sound design noisy interference accent with a thin, tight crackle and chuff
Sound design noisy interference accent with a thin, tight crackle and chuff, complex
Sound design noisy interference accent with a thin, tight crackle and chuff, complex, forceful
Sound design noisy interference accent with a thin, tight crackle and chuff, squeezed
Sound design noisy interference accent with a thin, tight crackle
Sound design noisy interference accent with a thin, tight crackle, light
Sound design noisy interference accent with a thin, tight crackle, medium to light
Sound design noise accent, pulsing fan blade, soft
Sound design noise accent, raw and coarse with pulsing cybernetic beeps
Sound design noise accent, raw and distorted
Sound design noise accent, raw and distorted blast
Sound design noise accent, raw, distorted, and forceful
Sound design noise accent, raw, distorted, and harsh
Sound design noise accent, raw, distorted, and muted
Sound design noise accent, raw and muted
Sound design noise accent, raw and thin
Sound design noise accent, resonant, granular, with a drone
Sound design noise accent, resonant and hollow buffetting softly
Sound design noise accent, resonant and hollow buffetting softly, muted
Sound design noise accent, resonant and hollow and high
Sound design noise accent, rumble with buffetting
Sound design noise accent, rumbling and faint subsonic tone
Sound design noise accent, hollow and muted, rising
Sound design noise accent, swells, airy and distorted gusts
Sound design noise accent, swells, airy and flanged and high gusts
Sound design noise accent, thin and resonant with a ringing accent
Sound design noise accent, thin and resonant with a ringing accent, pinched
Sound design noise accent, thin and resonant with a ringing accent, push
Sound design noise accent, thin and resonant with a ringing accent, short
Sound design noise accent, thin and resonant with a ringing accent, skipping
Sound design noise accent, thin and resonant with a ringing accent, strong then diminishing
Sound design noise accent, thin and resonant with a ringing accent, tight
Sound design noise accent, thin and soft and crackling
Sound design noise accent, thin and soft and crackling, short
Sound design noise accent, thin and tight and rumbling, soft
Sound design noise accent, thin and tight and shrill
Sound design noise accent, thin and tight and shrill with a crackle
Sound design noisy transmission accent with a soft whine and crackle and chuff

Sound design noisy transmission accent with a soft whine and crackle and strong chuff

Sound design noisy transmission accent with thin, tight, cybernetic chattering, muted blurp

Sound design noisy transmission accent with thin, tight, cybernetic chattering, short and low

Sound design noisy transmission accent with thin, tight, cybernetic chattering, evolving and complex

Sound design noisy transmission accent with thin, tight, cybernetic chattering, short and mid-toned

Sound design noisy transmission accent with thin, tight, cybernetic chattering, descending two tone

Sound design noisy transmission accent with thin, tight, cybernetic chattering, mangled two tone

Sound design noisy transmission accent with thin, tight, crackling and some buzz hit, crackling

Sound design noisy transmission accent with a thin, tight, whine an crackle, strong to sputtering

Sound design buzzing and noisy tone with a shuddering, whining buzz and crackling noisy hits and swells in a loop

Sound design buzzing and noisy tone with a subtle, swelling buzz and coarse, sputtering noise with swells in a loop

Sound design buzzing and noisy tone with a thin, whining buzz and coarse, sputtering noise with swells in a loop

Sound design buzzing and noisy interference tone with a raw, harsh buzz and raw, coarse noise and hits in a loop

Sound design buzzing and noisy interference tone with a raw, resonant, and erratic buzz and raw, sputtering noise in a loop

Sound design buzzing and noisy interference tone with a raw, resonant, thin, and erratic buzz and raw, sputtering noise in a l

Sound design buzzing and noisy interference tone with a resonant, erratic buzz and soft noise with hits and swells and occlu

Sound design buzzing and noisy interference tone with a thin buzz with swells and grinding and fluttering, subtle noise in a ld

Sound design buzzing and noisy interference tone with a raw, harsh buzz and raw, coarse noise in a loop

Sound design buzzing and noisy interference tone with a raw, pushy buzz and crackling, sputtering noise

Sound design buzzing and noisy interference tone with a thin, chattering, and choppy buzz, mobile phone

Sound design buzzing and noisy interference tone with a thin, chattering buzz, mobile phone, irregular

Sound design buzzing and noisy interference tone with a thin, chattering buzz, mobile phone, long

Sound design buzzing and noisy interference tone with a tight buzz and chattering, erratic noise

Sound design buzzing and noisy tone, steady with a coarse buzz and crackling noise in a loop

Sound design buzzing and noisy tone, steady with a coarse, harsh buzz and thin, high noise

Sound design buzzing and noisy tone, steady with a coarse, resonant buzz and coarse noise

Sound design buzzing and noisy tone, steady with a coarse, deep buzz and thick noise in a loop

Sound design buzzing and noisy tone, steady with a coarse, thin buzz and coarse, crackling noise

Sound design buzzing and noisy tone, steady with a deep buzz and soft, crackling noise in a loop

Sound design buzzing and noisy tone, steady with a harsh cybernetic buzz and tight noise in a loop

Sound design buzzing and noisy tone, steady with a harsh, flexing, resonant buzz and thick noise

Sound design buzzing and noisy tone, steady with a mid low-toned buzz and high, subtle noise

Sound design buzzing and noisy tone, steady with a mid low-toned buzz and noise hits in a loop

Sound design buzzing and noisy tone, steady with a nasal mid-toned buzz and noise hits in a loop

Sound design buzzing and noisy tone, steady with a muted, high buzz and crispy, evolving noise in a loop

Sound design buzzing and noisy tone, steady with a raw, resonant and deep buzz and thin, high, noise

Sound design buzzing and noisy tone, steady with a raw, resonant mid-toned buzz and thin, high noise

Sound design buzzing and noisy tone, steady with a resonant buzz and crackling harsh noise in a loop

Sound design buzzing and noisy tone, steady with a resonant buzz and thin, chattering, and crisp noise

Sound design buzzing and noisy tone, steady with a subtle, resonant buzz and crackling noise in a loop

Sound design buzzing and noisy tone, steady with a tight, pinched buzz and tight, crisp noise in a loop

Sound design buzzing and noisy interference tone, steady with a thick, coarse, buzz and gritty noise in a loop

Sound design buzzing and noisy interference tone, steady with a resonant buzz and crackling noise in a loop

Sound design buzzing and noisy interference tone, steady with a resonant buzz and tight noise with hits in a loop

Sound design buzzing and noisy interference tone, steady with a tight, resonant buzz and tight noise hits in a loop

Sound design buzzing and noisy interference tone, steady with a thin, buzz steady to swells with soft noise in a loop

Sound design buzzing and noisy interference tone, steady with a high, whining buzz and harsh, crackling noise, alt 1

Sound design buzzing and noisy interference tone, steady with a high, whining buzz and harsh, crackling noise, alt 2

Sound design buzzing and noisy interference tone, steady with a high, whining buzz and harsh, crackling noise in a loop

Sound design buzzing and noisy transmission tone, steady with a raw, deep buzz and soft and crackling noise, subtle

Sound design buzzing and noisy transmission tone, steady with a subtle buzz and soft noise hits

Sound design buzzing tone, steady and high and shrill

Sound design buzzing tone, steady with a raw, aggressive wavering pulse

Sound design buzzing tone, steady and raw, coarse and nasal in a loop

Sound design buzzing tone, steady and raw, coarse and pushy and tight

Sound design buzzing tone, steady and raw, crisp and forceful, deep and resonant

Sound design buzzing tone, steady and raw, forceful and resonant, mid-low toned

Sound design buzzing tone, steady and raw, forceful and resonant, mid-toned

Sound design buzzing tone, steady and raw, coarse, and electric

Sound design buzzing tone, steady and raw, coarse and pushy

Sound design buzzing tone, steady and raw, forceful and deep

Sound design buzzing tone, steady and raw, gritty, and resonant

Sound design buzzing tone, steady and resonant with left-right split

Sound design buzzing tone, steady and resonant and muted, deep

Sound design buzzing tone, steady and resonant with left-right split, alt 1

Sound design buzzing tone, steady and resonant with left-right split, alt 2

Sound design buzzing tone, steady and resonant and deep

Sound design buzzing tone, steady and resonant and muted

Sound design buzzing and noisy transmission tone, steady with a subtle buzz and soft noise hits, few

Sound design buzzing and noisy transmission tone, steady with a thin, deep whining buzz and crackling noise

Sound design noisy and buzzing interference tone with chattering, irregular noise and a resonant buzz and hits

Sound design buzzing and noisy tone, steady with thick, forceful noise and a thin, pulsing buzz

Sound design buzzing and noisy tone, steady with soft noise and hits and a soft buzz in a loop

Sound design buzzing and noisy tone, steady with thick noise and deep buzz in a loop

Sound design noisy interference tone, crisp and crackling with buzz accents in a loop

Sound design noisy interference tone, deep, subsonic, and resonant flutter, panning in a loop

Sound design noisy interference tone, crisp and crackling harshly, hard to medium

Sound design noisy interference tone, crisp and crackling randomly in a loop

Sound design noisy interference tone, fluttering with chuffs in a loop

Sound design noisy interference tone with sporadic hits and chuffs

Sound design noisy tone, steady, airy, distorted, and muted in a loop Sound design noisy tone, steady, airy, nasal, and pinched in a loop

Sound design noisy tone, steady, airy, thick, and raw with a deluge in a loop

Sound design noisy tone, steady, airy, thick, and soft with faint chuffs in a loop Sound design noisy tone, steady, airy, thick, and soft with faint crackles in a

Sound design noisy tone, steady, airy, thick and soft with a rumble in a loop

Sound design noisy tone, steady, airy, thick, soft, and spacious in a loop

Sound design noisy tone, steady, airy, thin, and faint with crackles in a loop

Sound design noisy tone, steady, airy, thin, and filtered and distorted in a loop

Sound design noisy tone, steady, airy, thing, and high with faint crackles in a loop

Sound design noisy tone, steady, airy, thin, and strong with faint crackles in a loop

Sound design noisy tone, steady, cybernetic wavering digital noise, nasal, in a loop

Sound design noisy tone, steady, granular nasal chattering with wavering in a loop

Sound design noisy tone, steady, granular and distorted with soft, airy noise in a loop

Sound design noisy tone, steady, granular, distorted, hollow, and overpowering in a loop

Sound design noisy tone, steady, granular, thin, pinched, and harsh with airy, thick, soft noise in a loop

Sound design noisy interference tone, steady with crackling, fluttering, and rumbling in a loop

Sound design noisy interference tone, steady with thin, tight crackling and chuffs in a loop

Sound design noisy tone, steady, raw and coarse with pulsing cybernetic beeps in a loop

Sound design noisy tone, steady, raw and distorted blast descending to muted tone

Sound design noisy tone, steady, cybernetic wavering digital noise in a loop

Sound design noisy tone, steady, granular, gritty, and sputtering in a loop

Sound design noisy tone, steady, granular, thin, and muted in a loop

Sound design noisy tone, steady, hollow, muted, and low in a loop

Sound design noisy tone, steady, granular and thin with a faint hum in a loop

Sound design noisy interference tone, steady with soft, random hits in a loop

Sound design noisy interference tone, steady with thin, tight nasal swells

Sound design noisy tone, steady, raw, distorted, and forceful in a loop

Sound design noisy tone, steady, raw, distorted, and harsh in a loop

Sound design noisy tone, steady, raw, distorted, and muted in a loop

Sound design noisy tone, steady, resonant, granular, with a drone in a loop

Sound design noisy tone, steady, resonant and hollow and high in a loop

Sound design noisy tone, steady, thin and ringing and crackling in a loop

Sound design noisy tone, steady, thin and soft and crackling in a loop

Sound design noisy tone, steady, thin and tight and crisp in a loop

Sound design noisy tone, steady, thin and tight and rumbling, soft

Sound design noisy tone, swells, airy and distorted gusts in a loop

Sound design noisy tone, swells, airy and flanged and high gusts

© 2017 by Airborne Sound, All Rights Reserved

Sound design noisy tone, steady, thin and tight, shrill in a loop

Sound design noisy tone, steady, thin and tight in a loop

Sound design noisy tone, steady, rumbling and faint subsonic tone in a loop

Sound design noisy tone, steady, thin and tight, shrill and crackling in a loop

Sound design noisy transmission tone, steady with a soft whine and crackle in a loop

Sound design noisy transmission tone, steady, thin and tight chattering with cybernetic accents in a loop

Sound design noisy transmission tone, steady, thin and tight with crackling and some buzz hits in a loop

Sound design noisy transmission tone, steady, thin and tight with swells and whining in a loop

Sound design noisy transmission tone, steady, thin and tight with swells and whining and buzzing in a loop

Sound design noisy transmission tone, steady, thin and tight with chuffs and chattering and subtle cybernetic elements in a l

Sound design noisy tone, steady, thin and resonant with ringing accents in a loop

Sound design noisy tone, steady, rumble with buffetting in a loop

Sound design noisy tone, steady, resonant and hollow buffetting softly in a loop

Sound design noisy tone, steady, resonant and hollow buffetting softly, muted in a loop

Sound design noisy tone, steady, raw and harsh and thin in a loop

Sound design noisy tone, steady, raw and distorted in a loop

Sound design noisy tone, steady, raw and harsh in a loop

Sound design noisy tone, steady, raw and thin in a loop

Sound design noisy tone, steady, raw and muted

Sound design noisy tone, steady, pulsing fan blade, soft, very fast in a loop

Sound design noisy tone, steady, airy, thick, and raw with swells in a loop

Sound design noisy tone, steady, airy, raw, and strong in a loop

Sound design noisy tone, steady, airy, thick, and soft in a loop

Sound design noisy tone, steady, airy, thick, and soft in a loop

Sound design noisy tone, steady, airy, thick, and soft in a loop

Sound design noisy tone, steady, airy, thin, and harsh in a loop

Sound design noisy tone, steady, airy, thin, and soft in a loop

Sound design noisy tone, steady, granular, thick, and pushy

Sound design noisy tone, steady, airy, thin, and strong in a loop

Sound design noisy tone, steady, airy and thin in a loop

Sound design noisy tone, steady, airy, thin, and faint

Sound design noisy interference tone, tight with hits

Sound design noisy tone, steady, airy and raw in a loop

Sound design noisy tone, steady, airy, thick, and muted

Sound design noisy interference tone, deep, subsonic, and resonant flutter, alt 1

Sound design noisy interference tone, deep, subsonic, and resonant flutter, alt 2

Sound design noisy interference tone, fluttering with chuffs and some buzz in a loop

Sound design buzzing and noisy tone, steady with thick noise and hits and a subtle buzz in a loop

Sound design buzzing and noisy tone, steady with thick, harsh noise and a subtle buzz in a loop

Sound design buzzing and noisy tone, steady with thin, crisp noise and a deep buzz in a loop

Sound design buzzing and noisy tone, steady with soft, thick noise and a resonant, subtle buzz in a loop

Sound design noisy and buzzing interference tone, noise hits and a soft, resonant buzz in a loop

Sound design noisy and buzzing interference tone with chattering, irregular noise and a tight, skipping buzz with a sliding tor

Sound design noisy and buzzing interference tone, steady with thin, crackling noise and a thin, subtle and whining erratic but

Sound design noisy and buzzing interference tone, steady with soft noise and a raw, subtle and whining buzz in a loop

Sound design buzzing and noisy tone, steady with thin, tight, and crisp noise with a subtle, swelling buzz in a loop

Sound design noisy and buzzing transmission tone, steady with harsh, strong noise and a subtle buzz in a loop

Sound design noisy and buzzing transmission tone, steady with thick, pushy noise and a subtle buzz in a loop

Sound design noisy and buzzing transmission tone, steady with soft noise and hits and a soft buzz in a loop

Sound design noisy and buzzing transmission tone, steady with soft noise and a subtle buzz in a loop

Sound design buzzing and noisy transmission tone, steady with a thin, deep whining buzz and crackling noise, alt

Sound design buzzing and noisy tone, steady with a strong, resonant buzz and thin, reedy noise in a loop

Sound design buzzing and noisy tone, steady with a shuddering, swelling buzz and coarse, sputtering faint noise in a loop

Sound design buzzing and noisy interference tone, steady with a chattering, shrill buzz and crackling, fluttering noise in a loo

Sound design buzzing and noisy interference tone, steady with a chattering, thin, swelling buzz and thin, granular ringing noise

Sound design buzzing and noisy interference tone, steady with a mid high-toned resonant buzz and crackling noise in a loop

Sound design buzzing and noisy interference tone, steady with a subtle buzz and crackling noise with robotic squeaks in a lo

Sound design buzzing and noisy interference tone, steady with a thin buzz and soft noise hits and occluded vocal accents in

Sound design buzzing and noisy interference tone, steady with a thin, resonant buzz and tight noise with occluded vocal acc

Sound design buzzing and noisy interference tone, steady with a thin, tight, subtle and erratic buzz and thin, crackling noise Sound design buzzing and noisy interference tone, steady with a tight, resonant buzz and chattering, erratic noise, alt

Sound design buzzing and noisy interference tone, steady with a tight, resonant buzz and chattering, erratic noise, in a loop

Sound design buzzing and noisy transmission tone, steady with a coarse, deep buzz and granular noise with a pulsing beep

Sound design buzzing and noisy transmission tone, steady with a coarse, deep buzz and thin noise with a ringing accent in a

Sound design buzzing and noisy transmission tone, steady with a coarse, resonant buzz and granular noise with a pulsing be

Sound design buzzing and noisy transmission tone, steady with a resonant, hollow, and chattering buzz and thin noise in a lo

Sound design buzzing and noisy transmission tone, steady with a thin, subtle and erratic buzz and thin, chattering noise in a

Sound design buzzing and noisy interference tone, steady with a thin, resonant buzz and harsh, crackling noise in a loop

Sound design buzzing and noisy interference tone, steady with a moaning, swelling buzz and chattering noise in a loop

Sound design buzzing and noisy tone, steady with a resonant buzz and flanging noise in a loop

Sound design buzzing and noisy tone, steady with a thin, shrill buzz and thin, soft noise in a loop

Sound design buzzing and noisy tone, steady with a tight, pinched buzz and tight, crackling noise

Sound design buzzing and noisy tone, steady with a resonant buzz and soft noise in a loop

Sound design buzzing and noisy tone with a buzzing line hum and thick, airy noise in a loop

Sound design buzzing and noisy tone, steady with a raw buzz and chattering noise in a loop

Sound design buzzing and noisy tone, steady with a raw, resonant buzz and coarse noise

Sound design buzzing and noisy tone, steady with a coarse, thing buzz and noise hits in a loop

Sound design buzzing and noisy tone, steady with a coarse, whining buzz and thin noise

Sound design buzzing and noisy tone, steady with a deep, whining buzz and noise hits

Sound design buzzing and noisy interference tone with a thin, chattering, and choppy buzz, mobile phone rhythm

Sound design buzzing and noisy interference tone with a whining buzz and tight, crackling subtle noise in a loop

Sound design buzzing and noisy interference tone with a whining buzz steady to swells with chattering noise

Sound design buzzing and noisy tone, steady with a coarse, resonant buzz and crackling noise hits in a loop

Sound design buzzing and noisy interference tone with a resonant buzz and noise hits and swells

Sound design buzzing and noisy interference tone with a resonant, chattering buzz and noise hits

Sound design noisy transmission accent with thin, tight, cybernetic chattering, crackling

Sound design noisy transmission accent with thin, tight, cybernetic chattering, evolving

Sound design noisy transmission accent with thin, tight, cybernetic chattering, two tone

Sound design noisy transmission accent with thin, tight, crackling and some buzz hit

Sound design noisy transmission accent with a thin, tight, whine an crackle, pulsing

Sound design noisy transmission accent with a thin, tight, whine an crackle, strong

Sound design noisy transmission accent with a thin, tight, whine an crackle, sustained

Sound design buzzing interference tone, swelling and skipping with a high, pinched whine

Sound design noisy transmission accent with a soft whine and crackle, complex 1

Sound design noisy transmission accent with a soft whine and crackle, complex 2

Sound design noisy transmission accent with thin, tight, cybernetic chattering, fizz
