

Harley Davidson (2007 Softail Deluxe) Motorcycle

The following is a **2007 Harley Davidson Softail Deluxe** motorcycle sound effects library (with **Metadata**).

Vehicle Type: Motorcycle

Brand: Harley Davidson

Model: Softail Deluxe

Year: 2007

Country origin: USA

Specification: 1584cc, 2 cylinder, 4 stroke, V-Twin, manual 6 speed, fuel injection system.

There are 46 minutes (2.52gb), 84 ready to use wave files, all captured in 24 Bit, 96 kHz. Files are divided into External following, External static, Foley, and Onboard sounds. For Mac users we recommend UnRarX. For Windows users we recommend WinRar. The Onboard recordings are in 2 separate mono wave files, channel 1 for engine and channel 2 for exhausts. Drag & drop or import each of the files into your audio editing software, then align them for creative mixing. There are also stereo mix versions of the OnBoard recordings. The External recordings are in stereo, one for following (tracking) and the other at a static (fixed) position.

SOUND EFFECTS LIBRARIES, BY WATSON WU
WATSONWU.COM

Onboard Settings:

Channel 1 = Engine, Channel 2 = Exhaust

External Settings:

Following (Stereo in Left & Right Channels tracking the moving vehicle)

Static (Stereo in Left & Right Channels from a fixed position)

Definitions & FAQs:

Onboard: Sounds heard from driver and passenger perspectives (in or on the vehicle)

External: Sounds heard from bystander's point of view.

If you need specific shots for your film, TV, and video game projects, Watson is available for hire to record all types of vehicles.
