

	SOLO INSECT SONGS	Duration	Microphone	Description
1	Bush-Cricket, Bicolorana Bicolor, high-pitched calling song.wav	01:40	Sanken CO-100K	Rich ultrasonic content. Recorded in Col de Larche, French Alps, France, August, day. Alt 1900 m.
2	Bush-Cricket, Gampsclais Glabra, Heath Bush-Cricket, high-pitched calling song.wav	02:50	Sanken CO-100K	Sounds like high-tention voltage. Recorded In Mount Aigoual, France, August, day. Alt 1550 m.
3	Bush-Cricket, Platycleis Affinis, long phrases, high-pitched calling song.wav	00:05	Sanken CO-100K	High frequency song. Recorded in Nimes, France, August, day. Alt 200 m.
4	Bush-Cricket, Platycleis Affinis, short phrases, high-pitched calling song.wav	00:05	Sanken CO-100K	High frequency song. Recorded in Collobrières, France, June, day. Alt 400 m.
5	Bush-Cricket, Tettigonia Cantans, Upland Green Bush-Cricket, fast pace.wav	01:33	Sanken CO-100K	Very loud sound. Can be heard at a distance of 400 m. Recorded in Meribel, Savoie, France, July, night. Alt 1500 m.
6	Bush-Cricket, Tettigonia Cantans, Upland Green Bush-Cricket, slow pace.wav	02:45	Sanken CO-100K	Very loud sound. Can be heard at a distance of 400 m. Recorded in Meribel, Savoie, France, July, night. Alt 1500 m.
7	Cicada, Lyristes Plebejus, long calling song, modulating.wav	01:05	Sanken CO-100K	Variable pace song. Sounds like a throaty engine at -75% speed. Recorded in Vitrolles, France, July, day. Alt 100 m.
8	Cicada, Lyristes Plebejus, long calling song, steady.wav	02:45	Sanken CO-100K	Variable pace song. Sounds like a throaty 2 engine at -75% speed. Recorded in Collobrières, France, June, day. Alt 300 m.
9	Cricket, Eumodicogryllus Bordigalensis, Bordeaux Cricket, rattle calling song, high pitch.wav	02:29	Sanken CO-100K	Throaty song. Recorded in Ginasservis, France, June, day. Alt 400 m.
10	Cricket, Eumodicogryllus Bordigalensis, Bordeaux Cricket, rattle calling song, low pitch.wav	00:43	Sanken CO-100K	Throaty song. Sounds like a bird when pitched down. Recorded in Mallemoisson-les-Grillons (which means "bad harvest the criquets"), France, May, day, Alt 600 m.
11	Cricket, Gryllotalpa Vineae, Mole Cricket, continuous calling song.wav	04:35	Sanken CO-100K	Extremely loud sound. Hard to stay next to the insect without ear protection. This mole cricket sings inside its pavilion-shaped burrow which amplifies the sound. Can be heard at a distance of 500 m. Recorded in Puyloubier,
12	Cricket, Gryllotalpa Vineae, Mole cricket, dicontinuous calling song.wav	01:56	Sanken CO-100K	Extremely loud sound. Hard to stay next to the insect without ear protection. This mole cricket sings inside its pavilion-shaped burrow which amplifies the sound. Can be heard at a distance of 500 m. Recorded in Puyloubier,
13	Cricket, Gryllus Campestris, Field Cricket, calling song.wav	02:49	Sanken CO-100K	Sounds like a bird at -80% of its original speed. Recorded in Mallemoisson-les-Grillons (which means "bad harvest the criquets"), France, May, day. Alt 600 m.
14	Cricket, Gryllus Campestris, Field Cricket, wings noise.wav	00:04	Sanken CO-100K	Sounds like a bird at -80% of its original speed. Recorded in Mallemoisson-les-Grillons (which means "bad harvest the criquets"), France, May, day. Alt 600 m.
15	Cricket, Pteronemobius Heydenii, Marsh Cricket, calling song.wav	00:28	Sanken CO-100K	Very small species (5mm). High-pitched song. Recorded in Camargue, France, August, day. Alt 0 m.
16	Grasshopper, Chorthippus Biguttulus, Bow-Winged Grasshopper, long crescendo.wav	00:10	Sanken CO-100K	Rich ultrasonic content. Recorded In Causse Méjean, "Massif Central" mountains, France, August, day. Alt 1000 m.
17	Grasshopper, Chorthippus Biguttulus, Bow-Winged Grasshopper, short crescendo.wav	00:06	Sanken CO-100K	Rich ultrasonic content. Recorded In Causse Méjean, "Massif Central" mountains, France, August, day. Alt 1000 m.
18	Grasshopper, Chorthippus Brunneus, Common Field Grasshopper, calling song.wav	00:45	Sanken CO-100K	Short phrases. This grasshopper is called "Duet grasshopper in French". It replies to the sound of other individuals and even to a rough vocal imitation. Recorded in Vitrolles, France, June, day. Alt 100 m.
19	Grasshopper, Chrysochraon Dispar, Large Gold Grasshopper, short crescendo.wav	01:27	Sanken CO-100K	Short crescendo. Actual sound is not very loud. Recorded in Meribel, Savoie, France, July, day. Alt 1700 m.
20	Grasshopper, Dociostaurus Marocanus, Moroccan Locust, calling song.wav	01:31	Sanken CO-100K	Short pulse song. Sounds like electricity at half-speed. Recorded in Collobrières, France, June, day. Alt 400m.
21	Grasshopper, Euchorthippus Declivus, Sharp-Tailed Grasshopper, short calling song.wav	01:29	Sanken CO-100K	Short song. Recorded In Mount Aigoual, France, August, day. Alt 1550 m.
22	Grasshopper, Gomphocerippus Apricarius, Upland Field Grasshopper, calling song.wav	02:09	Sanken CO-100K	Long scattered crescendo. Recorded in Meribel, Savoie, France, July, day. Alt 1700 m.
23	Grasshopper, Gomphocerus Sibiricus, Club Legged Grasshopper, calling song.wav	02:04	Sanken CO-100K	Steam engine-like song. Recorded in Meribel, Savoie, France, July, day. Alt 2400 m.
24	Grasshopper, Gomphocerus Sibiricus, Club Legged Grasshopper, warming up.wav	00:18	Sanken CO-100K	Steam engine-like song. Recorded in Meribel, Savoie, France, July, day. Alt 2400 m.
25	Grasshopper, Omocestus Raymondi, Raymond's Grasshopper, short crescendo, harsh tone.wav	01:03	Sanken CO-100K	Short crescendo song. Recorded in Vitrolles, France, June, day. Alt 100 m.
26	Grasshopper, Omocestus Raymondi, Raymond's Grasshopper, short crescendo, soft tone.wav	00:06	Sanken CO-100K	Short crescendo song. Recorded in Vitrolles, France, August, day. Alt 100 m.
27	Grasshopper, Omocestus Viridulus, Common Green Grasshopper, long crescendo.wav	00:35	Sanken CO-100K	Machine gun-like song. Very long phrases. Recorded in Meribel, Savoie, France, July, day. Alt 1700 m.
28	Grasshopper, Ramburiella Hispanica, complex calling song.wav	00:21	Sanken CO-100K	Shorts yet complex impulses. Recorded in Vitrolles, France, September, day. Alt 100m.
29	Grasshopper, Ramburiella Hispanica, simple calling song.wav	00:13	Sanken CO-100K	Shorts yet complex impulses. Recorded in Vitrolles, France, September, day. Alt 100m.
30	Grasshopper, Ramburiella Hispanica, two males competing.wav	00:20	Sanken CO-100K	Shorts yet complex impulses. Recorded in Vitrolles, France, September, day. Alt 100m.
31	Grasshopper, Stauroderus Scalaris, Large Mountain Grasshopper, calling song, different specimens.wav	00:50	Sanken CO-100K	Recorded in Molines-en-Queyras, French Alps, France, August, day. Alt 2100 m.
32	Grasshopper, Stenobothrus Lineatus, Stripe Winged Grasshopper, modulating sound.wav	01:29	Sanken CO-100K	Rich ultrasonic content. Sounds like a geiger when pitch to -95% of original speed. Recorded in Thorame Basse, French Alps, July, day. Alt 1300 m.
33	Grasshopper, Stenobothrus Rubicundulus, Wing-buzzing Grasshopper, calling song, rare species.wav	00:45	Sanken CO-100K	Rare species. Very loud wing-flapping song, unique among grasshoppers. Called "Helicopter grasshopper" in France. Recorded in Col de Larche, French Alps, France, August, day. Alt 1900 m.
34	Hawk-Moth, Acherontia Atropos, African Death's Head Hawkmoth, specimen 1, fast pace.wav	00:31	Sanken CO-100K	Short squeaks produced as a defence mechanism, this specimen produced two alternating sounds. Recorded in studio.
35	Hawk-Moth, Acherontia Atropos, African Death's Head Hawkmoth, specimen 1, slow pace.wav	00:09	Sanken CO-100K	Short squeaks produced as a defence mechanism, this specimen produces two alternating sounds. Recorded in studio.
36	Hawk-Moth, Acherontia Atropos, African Death's Head Hawkmoth, specimen 1, stuttered.wav	00:18	Sanken CO-100K	Short squeaks produced as a defence mechanism, this specimen produces two alternating sounds. Recorded in studio.
37	Hawk-Moth, Acherontia Atropos, African Death's Head Hawkmoth, specimen 2, fast pace.wav	00:14	Sanken CO-100K	Short squeaks produced as a defence mechanism, this specimen produces one repeated sound. Recorded in studio.
38	Hawk-Moth, Acherontia Atropos, African Death's Head Hawkmoth, specimen 2, slow pace.wav	00:32	Sanken CO-100K	Short squeaks produced as a defence mechanism, this specimen produces one repeated sound. Recorded in studio.
39	Hawk-Moth, Acherontia Atropos, African Death's Head Hawkmoth, specimen 2, stuttered.wav	00:32	Sanken CO-100K	Short squeaks produced as a defence mechanism, this specimen produces one repeated sound. Recorded in studio.
	FLYING INSECTS			
40	Bug, Palomena Prasina, Green Shield Bug, flapping wings.wav	00:38	Sanken CO-100K	Sounds like paper when pitched down to around -80%. Recorded in studio.
41	Fly, Musca Autumnalis, flying, long flights.wav	00:21	Sanken CO-100K	Typical fly sound. Pretty big fly. Recorded in studio. Wing sound.
42	Fly, Musca Autumnalis, flying, short flights.wav	01:20	Sanken CO-100K	Typical fly sound. Pretty big fly. Recorded in studio. Wing sound.
43	Hawk-moth, Acherontia Atropos, African Death's Head Hawkmoth, flapping wings.wav	01:13	Sanken CO-100K	Sounds like an idle engine. Flapping speed slowly increases until the butterfly takes off. Wings rubbing sound is mostly in ultrasonic range. Recorded in studio.
44	Hawk-moth, Acherontia Atropos, African Death's Head Hawkmoth, taking off.wav	00:09	Sanken CO-100K	Short take off. Recorded in studio.
45	Hoverfly, Sphaerophoria Scripta, Long Hoverfly, flying, sounds like a mosquito.wav	01:07	Sanken CO-100K	Fast little hoverfly. Sounds like a mosquito at normal speed and like a boat engine at 1/4 speed. Recorded in Mallemoisson-les-Grillons (which means "bad harvest the criquets"), France, May, Alt 600 m, day.
46	Hoverfly, Volucella Zonaria, Hornet Hoverfly, flying against window.wav	00:39	Sanken CO-100K	Huge fly that looks like a hornet. Recorded in studio. Wing sound.
	AMBIANCES			
47	Ambiance, Bees, swarm, gathering pollen from a tree.wav	01:48	Sennheiser MKH 8040 ORTF	Stereo ambiance of bees gathering pollen in a linden. Wings, pass-bys. Recorded in Vitrolles, May. Day. Alt 100 m.
48	Ambiance, Cicadas, summer, high-pitched Cicadas, soft wind.wav	06:03	Sennheiser MKH 8040 ORTF	Stereo ambiance of the typical summer of the south of France. Main species: Cicada Orni, Cicada Atra. Recorded in Colobrières France, July, day. Alt 200 m.
49	Ambiance, Cicadas, summer, medium-pitched Cicadas, gentle wind.wav	04:40	Sennheiser MKH 8040 ORTF	Stereo ambiance of the typical summer of the south of France. Main species: Cicada Orni, Lyristes Plebejus. Recorded in Colobrières, France, July, day. Alt 200 m.
50	Ambiance, Grasshopper, Bush-Crickets, some flies, meadow, mountain 2000 m altitude, summer.wav	02:24	Sennheiser MKH 8040 ORTF	Stereo ambiance around midday in a field in French Alps. Main Species: Stauroderus Scalaris, Tettigonia Viridissima and unidentified bush-crickets. Recorded in Molines-en-Queyras, France, August, day. Alt 2000 m.
51	Ambiance, Grasshoppers, Bush-Crickets, mountain 1200 m altitude, summer, mono.wav	03:10	Sanken CO-100K	Mono ambiance around 10 AM in "Massif Central" mountains. Mixed grasshopper species with rich ultrasonic content. Sound like white noise. Recorded in l'Espérou, France, August, day. Alt 1200 m.
52	Ambiance, Grasshoppers, Ephippiger, Decticus, meadow, mountain 1200 m altitude, summer, mono.wav	03:27	Sanken CO-100K	Mono ambiance in a cultivated meadow. Main species: Ephippiger terrestris, mixed grasshoppers. Recorded in Thorame-Haute, France, August, day. Alt 1200 m.
53	Ambiance, Grasshoppers, Ephippiger, Decticus, meadow, mountain 1200 m altitude.wav	05:01	Sennheiser MKH 8040 ORTF	Stereo ambiance in a cultivated meadow. Main species: Ephippiger terrestris, mixed grasshoppers. Recorded in Thorame-Haute, France, August, day. Alt 1200 m.
54	Ambiance, Grasshoppers, grassland, mountain 2000 m altitude.wav	03:13	Sennheiser MKH 8040 ORTF	Stereo ambiance around midday in a field in French Alps. Main Species: Stauroderus Scalaris and unidentified bush-crickets. Recorded in Molines-en-Queyras, France, August, day. Alt 2000 m.
55	Ambiance, Heath Bush-Crickets, wind, summer.wav	01:58	Sennheiser MKH 8040 ORTF	Stereo ambiance around midday in a field in "Massif Central" Mountains. Main species: Gampsclais Glabra. Recorded In Causse Méjean, France, August, day. Alt 1000 m.
56	Ambiance, night, hedge, Crickets, Bush-Crickets, summer.wav	06:08	Sennheiser MKH 8040 ORTF	Stereo ambiance around 10 PM in a hedge in French Alps. Main species: Oecanthus Pellucens, Tettigonia Viridissima. Recorded In Mount Aigoual, France, August, dusk. Alt 900 M.
