

The Magic Whisper Collection

Thank you for purchasing “The Magic Whisper Collection” !

it is an enchanting sound effect library that delivers a spectrum of vocal murmurs, ranging from delicate, breathy whispers to haunting and ethereal tones. With 980 meticulously crafted sounds spread across 196 files, totaling 5.72GB, this collection offers a rich variety of auditory elements, ensuring a truly immersive magical audio experience.

The library is divided into two main categories: foundational sounds and crafted, ready-to-use effects. The foundational sounds provide raw vocal murmurs, whispers, and subtle tonal variations that allow for creative manipulation, while the crafted effects are fully designed, polished sounds ready to be integrated into both creative and professional projects. Whether you're working on ambient magical worlds or adding vocal depth to a narrative, this collection has everything you need.

The library is organized into diverse character types, including male, female, non-gendered, child, choir, and monster, providing a versatile array of voices and tones to bring your magical worlds vividly to life.

For sound designers seeking incantations, group recordings, children's murmurs, or other mystical vocal effects, every sound has been recorded and mastered at 24bit, 96 KHz. Each element is meticulously tagged with metadata for seamless integration into your projects.

The Magic Whisper Collection was captured using a selection of microphones, including

- Schoeps MK41/MK4, MK8 (Mid-Sid configuration)
- Ultrasonic microphone AP 96k
- Sennheiser MKH 416,
- a pair of Line Audio CM4's,
- a pair of LOM USI Pro's,
- Aquarian H2A

And digital recorders like

- Sound Devices Mix Pre 6 II,
- Sony A10
